PROJECTS

Aoun | Arabic Donation Platform

Next.js, TypeScript, Node.js / Express, MongoDB, Socket.IO

- Created and launched an Arabic donation MVP connecting item listings and need requests with reservations, FIFO waitlists and two-party handover confirmation.
- Defined and validated donor/admin journeys covering JWT/OTP authentication, Socket.IO chat, reservation expiry, reports and support; investigated defects and guided fixes.
- Managed Vercel/Render releases; the codebase includes a layered backend, Playwright tests and GitHub Actions.

UniEvents | Graduation Project

ASP.NET Core MVC, C#, Entity Framework Core, SQL Server

- Developed MVC booking workflows with Razor, EF Core and SQL Server, student/admin roles and duplicate-booking checks.
- Handled cancellations and capacity increases with FIFO waitlist promotion; provided ticket verification, attendance tracking, QuestPDF tickets and ClosedXML Excel exports.
