### PROFESSIONAL SUMMARY

Computer Science graduate seeking junior full-stack roles, with hands-on experience taking AI-assisted web projects from requirements to deployment. Created Aoun, a live Arabic donation platform, by shaping workflows and technical structure, validating user journeys, and managing releases. Project experience with Next.js, Node.js/Express, ASP.NET Core, C#, SQL, and OOP.

### TECHNICAL SKILLS

Languages & foundations: C#, JavaScript, SQL, OOP, HTML, CSS; TypeScript used in projects.
Technologies: Next.js, Node.js/Express, REST APIs, MongoDB, ASP.NET Core MVC, EF Core, SQL Server; Angular used in HelpDesk.
Workflow & quality: Requirements analysis, API testing, manual testing, Git/GitHub, Postman, Playwright, GitHub Actions CI, Vercel, Render.
AI-assisted development: AI-supported implementation, code review, debugging, and test creation; iterative verification of generated changes.

### PROJECTS

#### Aoun | Arabic In-Kind Donation Platform

**Project Creator | Full-Stack Application | Next.js, TypeScript, Node.js, Express.js, MongoDB, Socket.IO**

- Created and launched an Arabic donation platform for listings, needs requests, bookings, FIFO waitlists, and handover confirmation.
- Designed donor, recipient, and admin workflows for roles, trust levels, ratings, reports, appeals, and support.
- Built features through AI-assisted iterations, including real-time chat, JWT/OTP authentication, booking safeguards, and scheduled jobs.
- Tested user journeys, resolved defects, and deployed the frontend to Vercel and API to Render; repositories include Playwright E2E and CI.

#### UniEvents | University Event Management & Booking

**Graduation Project | ASP.NET Core MVC, C#, EF Core, SQL Server**

- Developed university event booking with student/admin workflows, capacity rules, FIFO waitlist promotion, and attendance tracking.
- Included PDF tickets, admin reports, and Excel booking exports.

GitHub: github.com/abuhager/privateevent

#### HelpDesk SaaS | IT Service Management System

**Portfolio Project | ASP.NET Core, C#, EF Core, SQL Server, Angular**

- Created a multi-company HelpDesk demo with ticket assignment, user roles, audit logs, SLA tracking, and a bilingual Angular interface.
- Defined workflows and architectural direction, manually tested features, and refined the product; repository includes automated tests.

Demo: helpdesk-abuhager.onrender.com

#### Khutwa | Arabic Learning & Progression Platform

**Portfolio Project | Next.js, ASP.NET Core, MongoDB**

- Created an Arabic learning prototype with staged lessons, quizzes, progress tracking, admin tools, and offline practice.
- Designed technical structure and iteratively tested learner flows; repository includes automated tests.

### EXPERIENCE

**.NET Development Trainee | Quark Software | Oct 2025 - Jan 2026**

Practiced C# syntax, .NET fundamentals, classes, OOP, and structured problem solving through console applications.

### TRAINING & CERTIFICATIONS

**Full-Stack Development (MERN) | DOT Jordan / Youth Grow Activity (YGA) | 2026**

Completed 130 hours of MERN technical training (Node.js, Express.js, MongoDB, REST APIs, Git, responsive web development). Earned the YGA Certificate of Completion for its six-month Digital Employability Program, covering technical training, mentoring, coaching, and employment-linkage activities.

**Programming & Database Foundations | Programming Advices | 12 structured courses**

### EDUCATION

**B.Sc. Computer Science | Al-Zaytoonah University of Jordan | 2022 - 2026**
